PLUS, IN THIS SPECIAL ISSUE:

LIUFON NEWS, MEMBERSHIP CORNER, THE CHAIRMAN'S CORNER, THE LONG ISLAND SCENE, THE NATIONAL AND INTERNATIONAL UFO REVEIW WITH A SPECIAL SECTION ON SOUTH AMERICAN SIGHTINGS. SPECIAL REPORT ON THE LATEST INFORMATION ON THE CONTINUING INVESTIGATION INTO THE MORICHES BAY INCIDENT INVESTIGATION. ALL IN THIS SPECIAL COMBINED ISSUE.

NEWS

.....The months of May and June were busy months for the crew of LIUFON. **** The total for reports filed so far this year on UFO sightings has reached some forty one reports. They range from the usual Nocturnal lights to reports of structured objects in daylight sightings. During the two months of May and June additional reports reached LIUFON that indicated that UFO activity, which had died down during the winter months, had resumed with increased sightings and phenomena reports. **** LIUFON was on top of the situation. ***** During the Spring activity has been on the upswing here on the Island. Reports have been coming in of cigar shaped objects being observed in areas of the Island. These have also been in conjunction with the resumption of various commercial companies' operation of blimps here on the Island again. It sounds like a replay of the same old scenario from the summer of 1991, which saw similar reports, but no definite blimp activity to correlate with the reports of U.F.O. sightings. This led to the opinion that there was something mimicking blimps in the night sky of Long Island. ***** The pattern continues again. ***** LIUFON conducted a whirlwind speaking tour during the months of May and June..... beginning with the following library talks : May 9th, LIUFON Chairman John Ford and James Lefante spoke at the Forest Hills Library to a estimated crowd of fifty. Library authorities have requested LIUFON to speak again. ***** May 20th, LIUFON Chairman John Ford presented the Status Report One presentation to a audience of over sixty persons at the Half Hollow Library in Dix Hills. The talk was to end at 9:00 P.M. but was so well received that questions and answers lasted until 11:30 P.M. when the custodian politely asked all to leave. **** LIUFON presented its first talk in Queens County to the North Hills Library to a packed audience of over a hundred persons in a standing room only lecture hall on June 11th. Library authorities were so pleased that they asked LIUFON Chairman John Ford to return later this fall. ***** On June 22nd, LIUFON presented its report on the Moriches Bay Incident to an enthralled audience of over a hundred in a packed lecture room at the Bellerose Library in Queens. Librarian Mr. Joseph Seale has requested LIUFON to return for additional presentations. The two months of May and June were busy ones indeed for LIUFON as it presented its programs for the audiences of Metropolitan Libraries. **** The area of Moriches Bay has been relatively quiet as far UFO Sightings are concerned this past year. This has led to a quiet reappraisal of Skywatch activities in that area for the next year. ***** The bad weather encountered during the spring and summer months forced for the first time in four years Operation Skywatch to be conducted on a limited basis with few members volunteering for duty on the weekend watches. ***** The entire program will be re-evaluated during the coming year. ***** Members wishing to write for either the journal or the newsletter are asked to submit their articles to the organization's mailbox at least one month in advance. All articles must deal with the UFO Phenomenon and have an objective, scientific approach to the understanding of the phenomenon. Please members, make yourself available, LIUFON wants to hear from you. Till the next newsletter30.

[O R D E R]

PAST MEMBERSHIP MEETINGS:

The last two membership meetings were held on August 28th and September 24th by LIUFON at the South Country Library in Bellport Village. The last two meetings were well attended with a good turn out of both members and the general public. The topic of the August meeting dealt with several short films dealing with several topics. The principle video shown dealt with the September 1991 Space Shuttle film shot of objects in orbit which were being fired on by some type of laser satellites. The next one dealt with more information on the Roswell Crash with a recounting by some of the surviving witnesses of their knowledge of the Roswell events of 1947 to Fund for UFO Research Investigators. The next one dealt with the Bob Lazarr story and his information on Alien Technology which he observed at the hidden government lab in Nevada which houses recovered alien spacecraft.

The September 24th meeting dealt with a replay of the interview done by LIUFON with Stewart Swerdlov on his controversial abduction case. A discussion on his case followed with a presentation by Preston Nichols who helped LIUFON on this baffling case of Government Frame-up and UFO Abductions. This presentation will be once again held by LIUFON for its membership in the near future.

UPCOMING MEMBERSHIP MEETINGS:

OCTOBER 30Th, 1992: This meeting will feature a LIUFON film featuring Joel Martin and Dr. Jean Mundy. It is a video recording of LIUFON's first membership meeting held in 1988. Runs for some two hours and features Dr. Mundy recounting some of her fascinating cases she has worked on. Joel Martin talks about his experiences with UFOs.

NOVEMBER 20Th, 1992: This meeting will feature a film recording from LIUFON's Conference in 1989 featuring Phil Imbrogno and his report on the Hudson Valley UFO Sightings. Runs for two hours and is a in depth report on the Hudson Valley Sightings.

DECEMBER 18Th, 1992: This meeting is an open forum discussion by LIUFON members and guests on UFOs. A free wheeling discussion for all members to part take in. Bring down your stories, questions and pet theories on the subject. All members will be given time to present their views. Meeting will be taped for future replay to the membership.

All meetings will be held at 6:30 P.M. on their respective dates at the South Country Library in Bellport Village. They are open to members, guests and general public.

OUR APOLOGIES, ONCE AGAIN:

Members, LIUFON has to apologize once again for the delay in its newsletter and journal. The organization's photocopier broke down and was laid up for three weeks during the later part of July and early August. As a result our schedule for our newsletters is five months behind. As LIUFON tries to catch up it must combine its issues to bring up its publishing schedule. The schedule will be as follows:

- May and June: The current issue which you are reading.
- July, August and September: Three month special issue will be out the middle of October.
- Journal: Will be out the end of October.
- October and November: Will be issued in the end of November.

OPERATION LONG ISLAND SKYWATCH: As was mentioned in the LIUFON News section of the newsletter, LIUFON's four year old program of weekend nighttime observations for UFOs has been a flop this spring and summer season. Because of the incessant bad weather which saw 16 weekends of rain and incremental weather conditions from rain, fog and wind storms the membership response was very limited to say at least. As a result, Operation Skywatch will end at the end of October and will resume in April of 1993.

CONFERENCE POSTPONED: The date for the October conference has been postponed until May of 1993 due to lack of operating capital to fund the conference. This is a result of the high costs endured this year which had to be incurred to repair LIUFON's photocopier. The exact date and location will be announced in a future edition of the newsletter.

WRITER'S NEEDED: Members wishing to write for the newsletter on a part time or permanent basis are asked to send their articles or columns to our post office box. All articles must deal with the UFO Phenomenon from a factual, scientific objective view of the phenomenon.

I.D. CARDS: Those members who have not received their current I.D. card this year, please notify the Hotline and it will be sent to you.

UFO REPORTS: Members please remember to report all UFO activity to the Hotline. If you hear of any activity from friends or associates who decline to report it themselves, please let us know what the facts are surrounding the incident by reporting it yourself to our organization. Your identity and your friend's identity will be kept confidential upon request.

Thank you for your co-operation !

The Modern Way To Meet

A NEED FOR UNITY AND THE STATUS QUO

The nineteen nineties have brought a record amount of change and hope for the world. In the last few years, one has seen the end of the Cold War, the dissipation of Russian Communism, the end of the Soviet Puppet Regimes in Eastern Europe and the removal of the Berlin Wall with the unification of Germany. Communism is on the wane in China, North Korea looks to the West for trade, Vietnam seeks accommodation with America and Castro totters of the brink of despair in a starving Cuba, events which would have astounded a generation ago miraculously appear in the closing years of the Twentieth Century. Old evils disappear, old enemies quickly become friends and a world on the brink of Nuclear destruction now grids itself for the dismantling of the means of its destruction as it builds the foundation for a lasting peace.

What has happened here to bring about this miracle ? Was it really economic stagnation alone which caused the mighty Soviet Union to cry "Uncle" and beg for mercy from a victorious West ? What has caused the dismantling of the mighty Soviet Empire and the freedom of its Serfs (Republics) who bask in the light of Democracy and enjoy the beginnings of freedom for the first time in many generations.

As all this transpires, the map of Europe changes quickly from a hodgepodge of small independent nations to a Federation of both Economic and Political unity which touches at the doorstep of the old Eastern Bloc nations who beg to enter. The United States, Canada and Mexico draw closer in free trade to emulate the economic unity of Europe while Japan and other Asian nations draw closer in economic co-operation and investment. The old rivalries disappear as need for co-operation among trade partners demands access to resources and a share of markets, labor and consumers. The watch word is unity, the need is co-operation and the goal is mutual benefits to all.

In the interim, as unity and co-operation expand a need for political stability is promoted. The threat of a Saddam Hussein arises in the Middle East which is terminated in Desert Storm, but leaves the Demagogue in power because the absence of his regime would undermine stability in that area. Western credits pour in to stabilize the old Soviet Union and its satellites in an effort to stabilize both the political and economic conditions in those regions. Russia and Yeltsin speak as one for co-operation with the United States in removing the threat of nuclear war while both emphasize the need for the umbrella of "Star Wars", against the missiles of Third World Powers. Red China is supported while she removes the Pro-Democracy demonstrators in a bloody purge which is condemned and soon forgotten. In the passing, China is given the opportunity to launch American Satellites into orbit, while American investments in China soar. Little by little Castro speaks of bringing back the "Yankee Tourists", when Soviet Aid disappears. Closer, yet closer, old enemies become friends and old antagonisms disappear while the cry for a "New World Order" is heard around the world.

The United Nations, once scorned as a testing ground for old rivalries and contesting powers is suddenly given new life to end conflicts and promote peace. Both the new Russia and the Western Powers headed by the U.S. now stand behind the U.N. in its efforts. The Civil War in Yugoslavia alarms both East and West who try to find a way to end its slaughter, before it breaks the new European order. Stability and maintenance are the watch words and foundation for the "New World Order", a new order made by whom and for what direction. Is it for Liberty and Freedom or a need for unity and order that dictates its creation ?

During all of these changes one hears of a massive UFO

Flap behind the Iron curtain two years before the end of Communism and the Warsaw Pact. In 1989, Russia loses two Space Probes on their way to Mars not before one photographs a 28 mile long object as it near the Moon Phobos. In China, UFOs are reported throughout the Northern Provinces along with human mutilations in 1990.

In the West, Crop Circles appear first in Britain, then the world during the 1980s, while strange lights accompany the nightly phenomenon in the fields. In America, a unprecedented period of UFO activity appears in the 1980s beginning in the Hudson Valley in New York and ends with Gulf Breeze and Ed Walter's incredible photographs by 1988. In the nation as a whole UFO sightings abound across the land. From the closet appears the UFO abductees with Bud Hopkins and Whitely Streiber opening the door. A topic once ridiculed is now the topic of specials and late night T.V., while thousands now claim an abduction experience as popular interest soars. News Reports and Specials prepare the way for the public to garnish ever more information on a topic once held to scorn by the media whose demand for more information on the Phenomenon never ends. As time passes. more activity emerges and more stories emerge.

Roswell is held forth as evidence that they crashed here and the Government knows the truth as dozens confirm the events of 1947. John Lear and Bill Cooper agree that they are here by treaty with technology as the exchange for human guinea pigs whose fate is yet unknown. Secret Government, UFO Bases, Alien Presence on Earth, abductions, mutilations both human and animal abound which culminate in a threat which Lear and Cooper agree is ever so real. Reagan announces three times in his Presidency that in the event of a interstellar threat all nations should put away their disagreements while uniting as a Planet.

As the nineties come forth, the Space Shuttle encounters strange objects in orbit in September of 1991 which are photographed while being fired upon by what no one knows. Is it Star Wars for real ? Ice crystals NASA experts exclaim while physicists in California deny NASA's explanation. Each night on T.V., shows detailing the latest on the phenomenon are shown to a startled public eager to know. It makes one wonder what the people are being prepared for in the very near future ?

Could it be, as the century nears its end, that a secret time table has begun to be played out in preparation for a Secret no longer able to be hid ? It could be some one has forced our hand to be played in anticipation of events to unfold. Whatever it may be it required the Cold War to end and all nations to come together while unity and the maintenance of the status quo must be preserved in anticipation of things to come.

An interesting thought, idle speculation or future events to come, only time will eventually tell.

FUTURE LIBRARY TALK DATES:

OCTOBER 29th, 1992: Baldwin Public Library at 7:00 P.M., featuring Status Report One . film and slide presentation.

NOVEMBER 12th, 1992: At the Huntington Public Library on Main Street Huntington. Starts at 7:00 P.M. featuring, Status Report One slide and film presentation.

NOVEMBER 15th, 1992: The Gelnedale Public Library in Glendale, Queens. Starts at 7:00 P.M. and feature a special feature on the Crop Circle phenomenon. Slide and film presentation.

(MORE DATES WILL BE ADDED AS THEY ARE SCHEDULED)

SILENT INVASIONBY ELLEN CRYSTAL

The sub title for this book is entitled, "the shocking discoveries of a UFO Researcher", which adroitly describes the revelations disclosed by Ellen Crystal, famed researcher of the Pine Bush Sightings in New York State. The book which was released by Paragon House in February this year is available in hardcover at your favorite bookstore and brings to public attention the mysteries unlocked by Ellen in her twelve year research into events in Pine Bush, New York.

Ellen Crystal, who has lectured at several LIUFON Conferences over the years, should be no stranger to our readers about her revelations. The book goes into depth about her experiences at Pine Bush and also into her personal experiences with the phenomenon.

Ellen became acquainted with first hand experience of the UFO Phenomenon, while living in Hollywood, California in 1971. During that period she lived in a small apartment complex and with neighbors and friends observed on a regular, nightly basis UFO sightings during a brief four month UFO flap in the area. It was not until she had a CE-3 experience while returning from her partime night job did she become bitten with the "BUG" and her quest for truth began. On a deserted street, not far from her apartment, she had an encounter with a angular shaped craft which descended from the sky and hovered in front of her exposing to her view a lighted interior with computers and alien pilot at the controls. Shocked, the experience upset her so, she decided to return to her home in New Jersey shortly after the experience.

This event triggered in Ellen a quest for more information on the subject. Researching the subject in books and periodicals, she absorbed much about the elusive nature of the subject. It would eventually lead on a twelve year journey through the woods and fields of Upstate New York and hundreds of photographs dealing with UFOs and their energy emissions.

Ellen's book deals with first with her California experiences which she fully relates in the opening of her book. The reader is then taken through her initial research in 1980 in the Pine Bush area which she developed on the basis of a tip from a friend at Omni Magazine. The remainder of her book deals with her experiences in the Pine Bush area from 1984 until the present.

Pine Bush, the small town nestled just North of Middletown, lies in the famed "UFO Corridor" of the Hudson Valley where the tremendous wave of sightings rocked that region in the early 1980s. It is here that Ellen launched her studies when she discovered that objects where being reported in and around Pine Bush in conjunction with landings and other strange phenomena. In 1984, the sightings increased to tremendous levels with incidents occurring almost every night. During her research which was sustained by her friends and fellow researchers, Ellen photographed hundreds of objects in that locale. Often and unexplained, Ellen's photographs were distorted by energy fields which would register on her film. In some instances, the film would be marred by low level "X-Ray" Radiation exposure. To date, ELlen has accumulated over 1000 such pictures.

Residents would report to her landings, animal mutilations, abductions and sightings as her research progressed in that area. Also reports of strange, non-indigenous animals would be related by local hunters. Reports of under ground construction efforts would be heard by farmers which encompassed machinery sounds, turbines and generators being heard. It is Ellen's belief that some sort of deep underground facility was being built

in that area.

The ships which appeared could not be clearly photographed due to the intense low level radiation they emitted. Only a camera with a plastic lense could be used to obtain some of the pictures.

Many revelations are made by Ellen in her book. She discusses her theory that there are some fifteen basic ship types which were commonly observed in Pine Bush and are also currently being observed World wide. She also states that the Alien ships are powered by some sort of Nuclear Fusion Reactor which would account for the radiation. The ships themselves are covered with a material which makes them invisible unless they are lit.

Ellen explores many of the current theories in today's research circles and discusses many of these in relation to her first hand knowledge accumulated from her Pine Bush research. From the topic of animal mutilations, abductions and the government cover-up, Ellen discusses many theories in an effort to explain the UFO Mystery.

The book is well written and was a pleasure for this reviewer to read. It will startle many researchers and open many avenues for discussion, but one thing it won't do is to bore the reader. It is well worth reading. Ellen Crystal has done a fine job in exposing the UFO Problem.

Published by Paragon house, it retails for \$19.95 at your better bookstores.

THE MORICHES BAY U.F.O. CRASH RETRIEVAL:

In the last three years, the Long Island U.F.O. Network has claimed publicly that on the night of September 28th, 1989 the United States recovered an alien space craft which was intercepted and downed through the use of advanced "Star Wars" technology off the South Coast of Suffolk County on Long Island in the area of Moriches Bay. The incident is still under investigation by LIUFON and the case file has not been closed. In the past year due to LIUFON's efforts through its Public Library talks it has brought additional information into the forefront of our investigation by additional witnesses contacting our organization concerning the incident.

The following report is an update on the Status of LIUFON's continuing investigation into recent developments surrounding the incident.

- 1) The scientist has gone public. The gentleman who was referred to in LIUFON's report on the incident which was first published in September 1991 is now identified. The individual referred to as Dr. Nick is identified now as Mr. Preston Nichols. He was employed as a Electronics Engineer at A.I.L. Electronics which designed the weapon employed at Moriches Bay. LIUFON, in an effort to conceal his identity, stated he was connected with Brookhaven Laboratories which he was not.
- 2) One statement made by Mr. Nichols concerning the incident was that the object made a "U" turn around the Bay when it returned from the East before it was shot down. LIUFON has a woman witness who observed from her bedroom around 11:30 P.M. or 12:00 A.M. that night the object moving along the coast line of Mastic Beach and swing along Smith's Point Beach Bay side before it was brought down. This witness' statement has helped to verify and substantiate additional segments of Mr. Preston Nichols' statement concerning the incident. The woman's name is being kept confidential.
- 3) On March 22, 1992 LIUFON went and appeared with Mr. Nichols on Lee Morehead's "Pyschic Channels" show on Cable 25 in Riverhead. The show was enthusiastically accepted by the viewing populace. A week after the show was aired, Lee Morehead, who lives in West Hampton, reported to LIUFON's hotline that she had an encounter with two Air Force pilots. It seems she was approached by the two pilots who were in full uniform while she was picking up her mail at the West Hampton Post Office. The two pilots were stationed at West Hampton Air Force Base (N.Y. State Air Guard) and remarked that they had seen the show and had enjoyed it immensely. They went further and told Lee that the incident had happened, although they did not participate in it. They had heard stories at the base that some of the wreckage was still there in a high security hanger which was under tight security. They wanted Lee to know this information and to pass it on to LIUFON. It has not been verified as of this writing. LIUFON plans to file a Freedom of Information Act Request concerning it.
- 4) Dr. Armand Victorian of Great Britain, who investigated the South African UFO Crash Case of 1989, contacted LIUFON concerning the case after reading about it in the latest edition of Len Stringfield's Journal. He received permission from LIUFON to utilize six of the best of the Peterson photographs for scientific computer analysis. In addition, he had been assisting the Belgian Air Force in their investigations into the Brussels sightings. The Belgian Government asked for copies of the photographs. The results have indicated that one of the pictures identically matches the lighting sequence of the Brussels object's lights. Computer analysis has brought out the structure of the object from behind the lights and has revealed the craft to be a triangular structure of immense size. The work was done

released when all scientific analysis and testing have been done and there is no doubt as to the authenticity of the findings.

5) LIUFON has received copies of Freedom of Information Act requests filed by Dr. Armand Victorian with the Air Force concerning the incident. One of these, a reply from the United States Air/Space Command has affirmed that there was no Soviet Reconnaissance Satellite Crash the night of incident. Further, United States Naval Space Tracking Command replied that there were three Soviet Satellite re-entries which were not carefully monitored on the night of September 29th, 1989. This was twenty four hours after the incident occurred. Apparently, the Soviet Satellite Story is just that, another story to confuse the issue.

6) LIUFON has received copies of the Flight Log of the New York State Air Guard 607th Air Sea Rescue Unit which was involved in the Moriches Bay Incident through the auspices of Dr. Armand Victorian who filed Freedom of Information Act requests to obtain it. It should be noted that LIUFON's original request indicated copies of it be made available which were never honored by the Air Guard. The flight log categorically indicates the operational area of the bogus Air Sea Rescue operation was conducted off of West Hampton and not over Moriches Bay which the Police, FAA, Coast Guard and N.Y. Air Guard stated in FOIA replies to LIUFON was what was seen and photographed as occurring. It is LIUFON's contention that all the agencies involved deliberately lied and concealed important information from LIUFON's investigation.

7) LIUFON talked to a woman, a close friend of LIUFON members Gary and Dorothy Tritt, who is a resident of Mastic Beach. The woman whose identity will remain confidential informed LIUFON that she witnessed one of the Moriches Bay objects at 8:30 P.M. on the night of the occurrence in the area of William Floyd Parkway and Montauk Highway moving on a South Easterly course towards Moriches Bay. She described it as a formation of six very bright amber lights in a crescent pattern attached to a indiscernible structure of immense size. This report if true would indicate one of the objects to have traveled down the length of William Floyd Parkway from the North and turned towards the East fifteen minutes before it was seen over Moriches Bay.

8) LIUFON members Tom and Bill Sudbrink reported to LIUFON an incident of great significance concerning the Moriches Bay Case. Tom and Bill are New York City Firemen and are acquainted with a brother Fireman who lives in Quogue. That gentleman had asked for a copy of the LIUFON report on the incident for his own interest. By chance, he is a neighbor to the Deputy Inspector of the New York State Police in charge of the Long Island based Troops on the East end. At a barbecue in July, he happened to attend at the Inspector's home he showed the report to the Inspector. After reading the report in his den, the fireman asked the Inspector for his opinion on the story. The Inspector remarked that he knew about the incident since the State Police had been briefed on it by Federal authorities. He stated the incident was true and happened the way LIUFON reported it but he had been briefed that the craft had crashed and was not shot down as reported by LIUFON. If this story is true, both Tom and Bill Sudbrink state it is, then the incident happened and was of such magnitude that local agencies had to be briefed on the Great Secret of Extraterrestrial Contact. This story if true, is of the greatest significance because it confirms the entire phenomenon and ranks with Columbus' discovery of America. Man is not alone, they are here. LIUFON wishes to thank both Tom and Bill Sudbrink for their assistance in bringing this story to public attention.

As the case continues into its third year of investigation, LIUFON will maintain the case as open in its files. Its significance is of tantamount importance to mankind, for it not only proves the existence of extraterrestrial beings, but our Government is in contact with them and has lied about the phenomenon for over forty years. In addition, the world is in jeopardy due to a breach of treaty which has been violated.

THE NATIONAL AND INTERNATIONAL UFO REVIEW MAY - JUNE 92

SPECIAL REPORT

FEATURE SELECTION

SOUTH AMERICAN SIGHTINGS

LIUFON is glad to provide a capsulated selection of newspaper articles dealing with UFO sightings from various South American Countries. The articles were gleamed from "The UFO Newscipping Service" and were translated by Richard Heiden. They deal with various sightings reported across the South American continent over the last two years.

MENDOZA, ARGENTINA, AUGUST 19, 1990: An interesting photographic curiosity was reported in the Argentinian city of Valle de Las Lenas centering on some snapshots taken by a local teacher from San Martin in the Valle de Las Lenas. When the photos were processed she noticed that one of the pictures besides showing a mountain scene, also showed very clearly a UFO.

The roll was processed and copied by a well known lab in San Martin and according to Abel Negri, an expert, there was no evidence of a hoax. He further stated that there was no technical explanation for the phenomenon.

The snapshot was taken on August 19, 1990 by Felisa Elena Martinez, when she was touring Las Lenas with a friend. According to her, that day at around 10 A.M. she took some panoramic photos of the mountains but at no time did she see the image that showed up later in the negative. The witness stated that she saw a flash which she attributed to the sun. The photographic curiosity was discovered in the lab and was possibly produced by superimposed images. In the right side what seems to be a UFO can be clearly seen flanked by two luminous flashes and another figure is suggested to the left, all amidst a zone of shadows. ("Los Andes", Sept. 5, 1990, Mendoza, Argentina)

MEXICO CITY, MEXICO, FEBRUARY 10, 1991: A strange sighting took place during February 10th's eclipse in Mexico City. Messrs. Eduardo Hernandez Galicia and Guillermo Arreguin were at work in a private office in the Southern part of the city and were allowed a break to watch the eclipse. They went up on the roof with an amateur video camera, a VHS Signatur 2000 with normal lenses. Due to the city being overcast, they watched at first with the naked eye; their main goal was to tape the eclipse and Mars, Jupiter and Mercury; they located the area of the eclipse in the sky and then Eduardo Hernandez started to search for the planets, but at that time he saw a solid object, seemingly metallic hovering overhead at a rather low altitude. The time was 1:38 P.M., Eduardo alerted Guillermo and he focused the object with his camera. It was round and remained hovering for some ten seconds. They told news reporters that it was silvery and had small black rings on the underside, at times it resembled a reflector, but was completely motionless. Guillermo wanted to zoom it in with the camera, but it was so bright that the only thing that could be seen was that object became larger and was noiseless even though the area was very noisy because they were in the Avenida Periferico (Next page)

(Continued on the next page) .

Sur 367, to one side of which there was a lot of traffic and some clouds, but there was visibility.

The object was never seen to climb, lose altitude or move to the sides, and what was extraordinary was that it suddenly disappeared. They searched everywhere for it, but they could not find it. It should be pointed out that this object was near the area of the eclipse which was watched by these gentlemen after determining the location of the above mentioned planets which were in another different segment of the sky. The video cassette clearly shows the strange object and description given agrees with what is observed clearly on the tape.

Reporters went to places where Guillermo and Eduardo were that day and started to ask their neighbors, most of whom had not been there that day while others came outside because they saw it on T.V. that day. The reporters' investigation, however, was very short but they learned of two witnesses from their family members, but were unavailable at that time to be interviewed.

This is a very important case and the object seen is very similar to the one that a family photographed on November 3, 1967 in Calgray, Canada, which was determined by analysis by experts to be a genuine UFO.

Local scientists were asked by reporters about any experiments which may have been conducted in the area of the eclipse, but not one could inform the media of a sonde balloon being launched that day. There were no reports of any other type of object in the area that might be explainable and could have confused onlookers. Besides no conventional object could hover motionless for several seconds, even less be round, metallic and disappear instantly without a trace. The altitude of the object was estimated to be at five kilometers while the local airport did not have any radar reports of helicopters in that area.

(LA PRENSA, FEBRUARY 12, 1991, MEXICO CITY, MEXICO)

CORIENTES PROVINCE, ARGENTINA, MARCH 15, 1991: Two young motorcyclists claimed to have seen a UFO while on Provincial Highway Five, which gave off an intense light and moved very quickly.

They identified themselves as Luis Silva and Basilio Gomez and they said they saw the flying object when they were going to San Luis del Palmar.

In an article published today by the local paper, "El Litoral", they were quoted as saying that the object was first noticed as having strong lights which were seen at a distance of over 1000 meters.

Later and without hearing any noise, they saw how the lights came down very quickly in a straight line.

While they waited for a car to pass, they saw that the object turned off its strong lights and moved to the other side of the road at incredible speed. They then could see it gave off colored lights and was quite big.

(EL DIARIO, PARANA, ARGENTINA, March 15, 1991)

TENJO, COLOMBIA, APRIL 2, 1991: Some say they have seen apparitions of the Blessed Virgin, but Luis Heberto Rodriguez, a peasant from Tenjo had a UFO appear to him and take him to Pitalito. The 37 year old countryman said that, "last Tuesday when I was riding to work, I was intercepted by a mysterious and strange craft.

He recalls that a very intense light came from the craft and when it hit his horse, it caused the animal to lose strength and to eventually kneel on the ground. Then he was introduced into a crystal cabin where there were three beings wearing silvery suits who made him lower his pants and then placed a glass cup on his back.

plane.
Suddenly, shortly after 8:00 P.M. on Wednesday night, the peasant found himself alone in a field near Pitalito where the craft had left him.

After walking for an hour, Luis Heberto showed up at the Pitalito police station. Many there thought that he was out of his mind. Others thought he was under the influence of scopolamine, but his candid expression and the specter of a terrible experience reflected in his face which dispelled the others' doubts.

Luis Heberto, married and the father of two, is now waiting to go back to Tenjo and be reunited with his family and his boss Raol Guitierrez.

SAN LUIS PROVINCE, PERU, APRIL 13, 1991: Dateline, Lima, Peru;
The last thing Peru, a country affected by multiple and different problems, needed was the arrival of extraterrestrials but these have now appeared and are touring around Ancash.

At least that is what can be inferred from accounts of several rural residents from San Luis Province located some 400 kilometers to the North of Lima, who claimed having seen a fleet of UFOs flying overhead last night.

One of the witnesses, Julio Mendoza, said this is not the first time they saw UFOs over San Luis or over the neighboring province of Antonio Raimondi, but the last appearance lasted such a long time and was so visible that it caused fear among the locals.

The accounts from local shepherds all agree that the objects were very bright and rhombic and appeared last night over the Tincush hill, flew towards the center and remained motionless for a long time before slowly disappearing over the Huahucocha lagoon.

(EL CRONICA, BUENOS AIRES, ARGENTINA, APRIL 15, 1991)

SAN BALTAZAR, PUEBLA, MEXICO, JULY 3, 1991: The news that a long, semi concave UFO, with two lights on the edges and a small dome on top crosses the sky every day, has caused a lot of commotion nationally in Mexico.

Mr. Oscar Zapien, originally from Chiapas, Mexico claims he saw the object the night of July 3, 1991, together with more than twenty people who had spent the night there especially to witness such a sighting.

People, even in their RVs, travel to a place which is famous for its UFO sightings called, "the little white house", especially to see the show.

In fact, the place has lately been considered as a tourist resort and a lot of people go there especially on weekends to see the UFO fly overhead.

Even though tens of people witness to the event claim that the craft looks like a banana, Mr. Zapien says that its lights, which go on and off, makes it resemble a feathered serpent, an archaeological symbol of pre-hispanic Mexico.

(Reported by Mrs. Zitha Rodriguez, Montiel, Mexico)

LAJAS, PUERTO RICO, JULY, 1989: A member of the National Guard of Puerto Rico who claims having met extraterrestrials urged the thousands of curious people that go to the Lajas area to stop trying to contact the aliens because it is the aliens who select their contacts.

The unidentified guardsman, who is T.V. technician by trade, claims he and his two sons were abducted while playing war games on the grounds of the Lajas Shooting Club in July of 1989.

The contactee stated he was examined and released and had communicated with his abductors by telepathy. He stated further that it is the aliens who select their contacts and that no one can influence them in their choices.

LONG ISLAND SCENE

.....During the months of May and June LIUFON dealt with the report of a large blimp like object reported over Cedar Beach on May 10th by a young couple (this report was mentioned in a previous newsletter) which observed the object beginning at 11:00 a.m. that morning on a zig zag course over the water. This case was investigated and no correlation could be found ascribing it to known blimp activity. This sighting which was reported by the young man to LIUFON did not give much information to go on. What was reported in the way of information, did provide LIUFON with enough material to at least make inquiries to eliminate any known blimp activity. ***** This sighting was only the beginning of the summer activity. More on the events of the summer months will be in the next newsletter. ***** The recent LIUFON blitz of library talks brought in reams of information on past and present sightings here in the metropolitan area, some which were never reported to any organization before. ***** What has emerged is a new insight into areas of high activity. ***** Recent talks in Queens have yielded information that indicates the Boroughs of Queens and Manhattan to be areas of frequent sightings, which should come as no surprise to the folks at LIUFON who have long suspected it to be the case. ***** In the area of Long Island's sister Counties of Nassau and Suffolk, information has surfaced which indicates that the communities of West and East Islip are areas of extremely high activity. More on this will mentioned in the next newsletter concerning the specifics, but right now it appears everything is happening over there from daylight sightings to abductions. ***** LIUFON has located additional witnesses to the March sighting which occurred at the Bagatelle Road exit of the Long Island Expressway. This sighting was a daylight incident of a silver disc. The additional witness observed the object over the Expressway moving to the South. ***** LIUFON had dropped its investigation into the West Islip case involving the young nurse (we'll call her Joan) who had reported a 1990 abduction incident from her home. After she had undergone several regression sessions, she had decided the trauma was too great to endure and requested the investigation to cease. ***** Joan has contacted us recently to advise LIUFON that the abductions appear to have begun again with a recent lost of her period for two months for which she has no explanation. Recurring episodes of missing time and strange light phenomena have strengthened her belief that unexplained events have transpired involving her. Joan has advised LIUFON that she now wishes her case to resume. ***** As of now LIUFON has reopened her case. ***** The past newsletter reported a case developing on Staten Island involving a young mother. At her request, she has declined LIUFON to investigate at this time. She has stated privately that she is too scared to uncover what has been happening to her. ***** In many cases involving abduction, persons who have been involved in such scenarios when they have made an initial report will decline further investigation for fear of what may have happened to them. This is not uncommon. ***** And so the activity continues here on the Island...till the next newsletter ...30.
